

## NID Account Setup

This tutorial will walk you through the steps to setup a NID account. The NID is your internet account that allows you to access computer-related resources in Feng Chia University. Your login generally includes your student number, and the password is the one you will create in this tutorial. Primarily, the NID is used for two things:

- 1) access the Blackboard (see other tutorial) which contains online listening resources and other items posted by teachers.
- 2) access the campus wireless connection. To connect, the login is your university email address. This will be your student number plus "@fcu.edu.tw". For example, I9603031@fcu.edu.tw. Your password will be your NID password you created in this tutorial.

## Step 1: Go to Students Page.
